2. Statement. Any statements required under this subchapter shall be located prominently and shall be in the English language in conspicuous and legible type in contrast by typography, layout or color with other printed matter on the label.

[1965, c. 65, (NEW).]

If the commissioner finds that, because of the size of the package involved or because of the minor hazard presented by the substance contained therein, or for other good and sufficient reasons, full compliance with the labeling requirements otherwise applicable under this subchapter is impracticable or is not necessary for the adequate protection of the public health and safety, the commissioner shall promulgate regulations exempting such substance from these requirements to the extent he determines to be consistent with

adequate protection of the public health and safety, or if the commissioner finds that the requirements of this section are not adequate for the protection of the public health and safety in view of the special hazard presented by any particular hazardous substance, he may by regulation establish such reasonable variations or additional label requirements as he finds necessary for the protection of the public health and safety; and any container of such hazardous substance, intended or suitable for household use, which fails to bear a label in accordance with such regulations shall be a misbranded package of a hazardous substance. [1965, c. 65, (NEW).]

Whenever in the judgment of the commissioner, such action will promote the objectives of this subchapter by avoiding or resolving uncertainty as to its application, the commissioner may by regulation declare to be a hazardous substance, for the purposes of this subchapter, any substance or mixture of substances which he finds meets the requirements of section 502, subsection 5. [1965, c. 65, (NEW).]
